To

The Director .

Subject: Proposal for CRM & business tracking System

Respected Sir/Madam,

We are very glad to introduce our company as “**CREATOS SOFTWARE**”, a Software company having Professional Expertise in all core areas of Information technology including IT Consultation, Software, Website Designing and Hosting, Web Development and Services & Support to maximize the customer satisfaction. We have evolved sound delivery models and business strategies to deliver high-quality and cost-effective solutions for our clients to perform better and meet their goals. Our Commitment to Perfection, Customer Satisfaction, Technical Expertise, Corporate values and Job Transparency has made us a preferred vendor to our Clients.

In **CREATOS software** we are dedicated to deliver quality solutions to diverse information technical demands. We have customers from a wide range of Industries.

CREATOS software is engaged in providing customized Software Solution according to requirements.

We feel pleasure to introduce our latest product. We Developed a fully Customized Software for your business.

CREATOS Management System is an ERP Solution that is easy to Use and implement. It is a single window (WEB-BASED) solution of enterprise where in each and every sections/departments and locations are integrated in to one. Information flows from one place to another automatically without any repetition of entry. This software is developed by our experts and using the latest technology, we developed it taking care of the user easiness; it is user friendly and customized software that a non-technical person can work on this software.

Creatos Hospital Management System is the most complete and multi-functional hospital or medical center management system. It collaborates admin, patients, doctors, nurses, laboratorists, pharmacists, receptionist, accountants so that all the paperworks and manual tiresome works can be automated easily and efficiently.
